SpillTrapper®

The eco-conscious absorbent mat for plant, construction, rail, and workshop use. Tested to BS 4790 fire-retardant standards, it delivers superior oil and fuel absorption without the need for containment trays. Made with EVO Recycled® fibres for high performance and sustainability. The hydrophobic layer repels rainwater, focusing absorbency where it's needed. Durable vinyl base, heavy-duty mesh, and metal eyelets ensure long-lasting use. Manufactured in Britain, SpillTrapper® provides a tougher, greener, and more economical solution for spill control.

SpillTrapper® Mats

- Unique heavy-duty edging design
- Tough mesh grid protects inner layers
- Hydrophobic absorbent traps oil and fuels
- Evo Recycled® core with unique 'Burst Fibre Technology' maximises absorbent capacity
- Dual oil absorbent layers add extra oil retention to minimise pooling or run-off
- Hard-wearing backing mat traps liquid inside reducing the risk of ground contamination

- Available in:
- 11 Standard Sizes.
 - Made to measure bespoke sizes.

E & OE. 10-1-25. SpillTrapper® will not counteract flammable properties of any liquid absorbed into the mat. If a spill or leak occurs, act according to your existing fire safety procedures.

ABSORBENT CAPACITY

4 Sizes Available

SpillTector®: British-Made, High-Capacity Absorbency for Tough Environments

Proudly made in Britain, SpillTector® combines exceptional environmental protection with high-capacity absorbency, efficiently capturing leaks and spills without interrupting your workflow.

Built to withstand the harshest conditions, these eco-friendly containment units come in four sizes, offering reliable, long-lasting performance while helping you meet stringent environmental standards.

Rain Water Flows Away

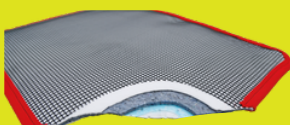

Flexible Sidewalls

Allow plant and machinery to be wheeled into place easily.

Unique Sorbent Laminate

Traps oil and fuel leaks while allowing clean rainwater to flow away

Tough Mesh Grid

Withstands heavy use while allowing oil to soak into sorbent material.
