

Keeping Waste & Recycling Operations Moving

Every Shift, Every Day.

Your Industrial Hose & Hydraulics
Supply Partner

WHY CHOOSE US?

Same-day or next-day supply on most items

Custom hose assemblies made to your spec

Supplied directly to your site or workshop

Technical advice from people who know their industry

Competitive pricing with no minimum order

Reliable stock - no waiting weeks for parts

RAM & Cylinder Repairs

Waste operations run on tight schedules. A hydraulic failure on a bin wagon or compactor can throw an entire round.

WHO WE ARE

UK Hose is a specialist supplier of hydraulic hose, fittings and fluid handling products (trusted by waste management companies, recycling operators and fleet managers).

We understand that vehicle downtime costs you rounds, contracts and money. That's why we carry extensive stock, offer expert technical advice and can supply direct to your depot or workshop.

As part of our group, our OEM division supplies hydraulic components directly to Dennis Eagle, meaning we can provide the exact replacement hoses and parts fitted to their vehicles as standard. Whether you need an emergency replacement or want ready-assembled spare kits to keep on the shelf, we can supply them.

Whatever the vehicle, whatever the fault, UK Hose has you covered.

Proudly recognised as a Platinum Supplier for

WHAT WE SUPPLY TO WASTE & RECYCLING

For skips, compactors, bin wagons and balers.

High-pressure Hydraulic
Hose

Stucchi®

Grease & Lubrication
Protection

Fuel Hose & Delivery
Hose

Heavy Duty Hose Clamps

Dust Caps & Plugs

Hydraulic Steel Tube
Replacements

Spill Control Products

Pressure Washers &
Washdown Hoses

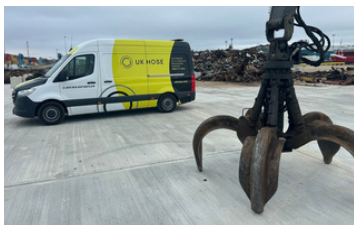

WHY KEEP PARTS ONSITE?

- A blown hydraulic hose on a bin wagon means a missed round - having the right parts on the shelf means a quick fix and the vehicle back out the same day.
- Compactors and balers run under extreme pressure - ram seal kits and high-pressure hose should always be in stock.
- Spill kits are a legal requirement when operating diesel-powered fleet vehicles - don't get caught without them.
- Dust caps and plugs protect your couplings between uses, extending component life and reducing costs.

WORK WITH US REGULARLY?

Ask about account pricing, regular deliveries and tailored stock packages for your depot or yard.

One Supplier. Everything you need. Ready when you are.
